

For Your Safety:

We look forward to seeing you at our welcome centre, however, we ask that you bear in mind that our production areas are potentially hazardous whilst we construct your new homes.

We ask that you observe the warning signs, and you keep your children under supervision at all times.

When entering the development by car please take note of the speed limits and parking areas. If you are joining us by foot please use the pedestrian routes provided and be wary of any high kerbs, exposed manhole covers and uneven surfaces.

Once with us a member of our sales team must always accompany you to the development if you wish to visit parts of our development outside of our show home area.

We will provide hard hats and high visibility jackets for you during your visit and these must be worn at all times if you are viewing incomplete homes or production areas.

We use some large construction vehicles such as Lorries, forklift trucks, dumpers and cranes. Our drivers may not see you as well as you see them and we understand these can be appealing to watch. It is however essential that you **do** keep your distance at all times.

We cannot allow access to any area of work where a danger may be present and ask that you respect this by only visiting our production areas accompanied by a member of our staff.

Animals (Except Guide Dogs) are not permitted on our developments under construction.

Where appropriate, wheelchair access is provided to our welcome centre and show homes, where our sales team are always available to assist.

We care about your safety and are responsible for you while you are with us and simply ask you except your responsibility in following our advice.
